

energy solidarity cooperative

Shiva Patel, Co-founder and Worker-owner

October 17, 2013

The community power switch.

Model Overview

ESC is a “multi-stakeholder cooperative”...

Stakeholder	Involvement	Benefits
Worker	Energy consulting services	Owner, Vote, Revenue
Consumer	Member equity & sites	Owner, Vote, Revenue
Community Investor	Crowd-sourced financing	Owner , Vote , Revenue

Inclusivity in
Community Power =

Autonomy
+ Accessibility
+ Accountability

Inclusivity in
Community Power =

energy justice +
democratic control

HIGH SCHOOL

Phase 1

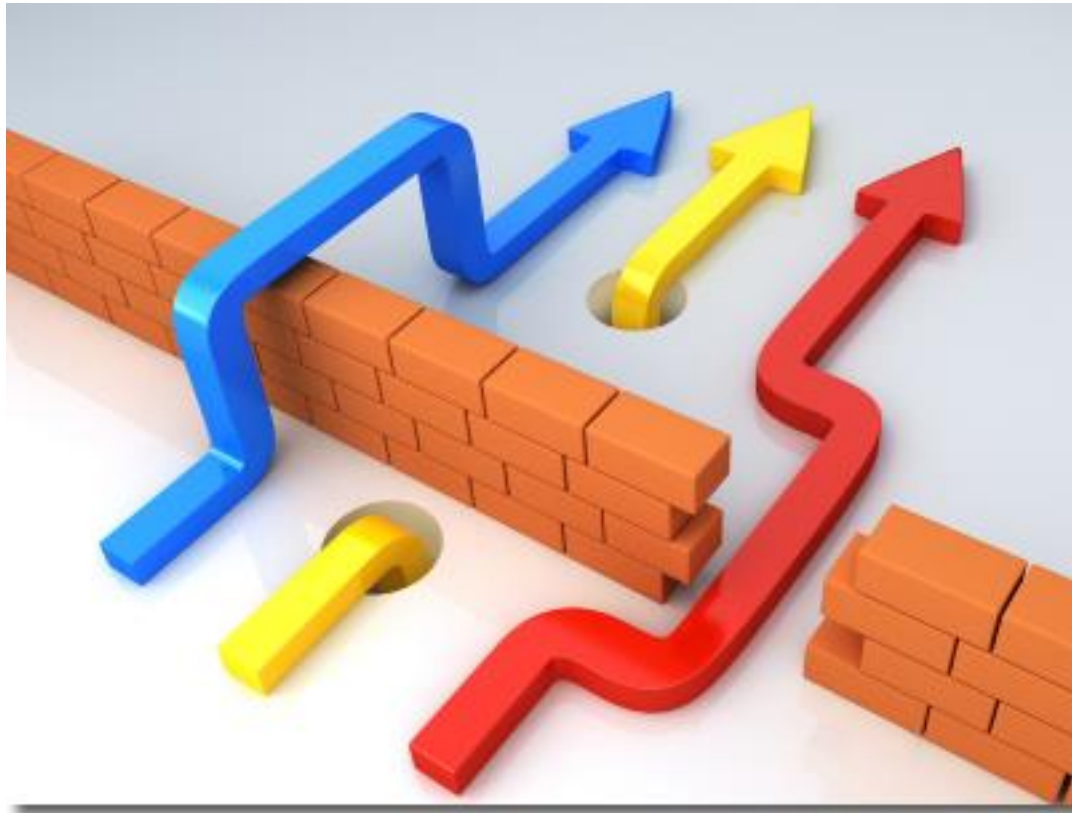

An aerial photograph showing a large-scale solar panel installation. In the foreground, numerous rectangular solar panels are laid out in neat rows on a flat surface. In the background, a long, white, single-story building with many windows is visible. A parking lot with several cars and trucks is situated between the solar panels and the building. The text "Phase 2" is overlaid in the upper right corner of the image.

Phase 2

Phase 3

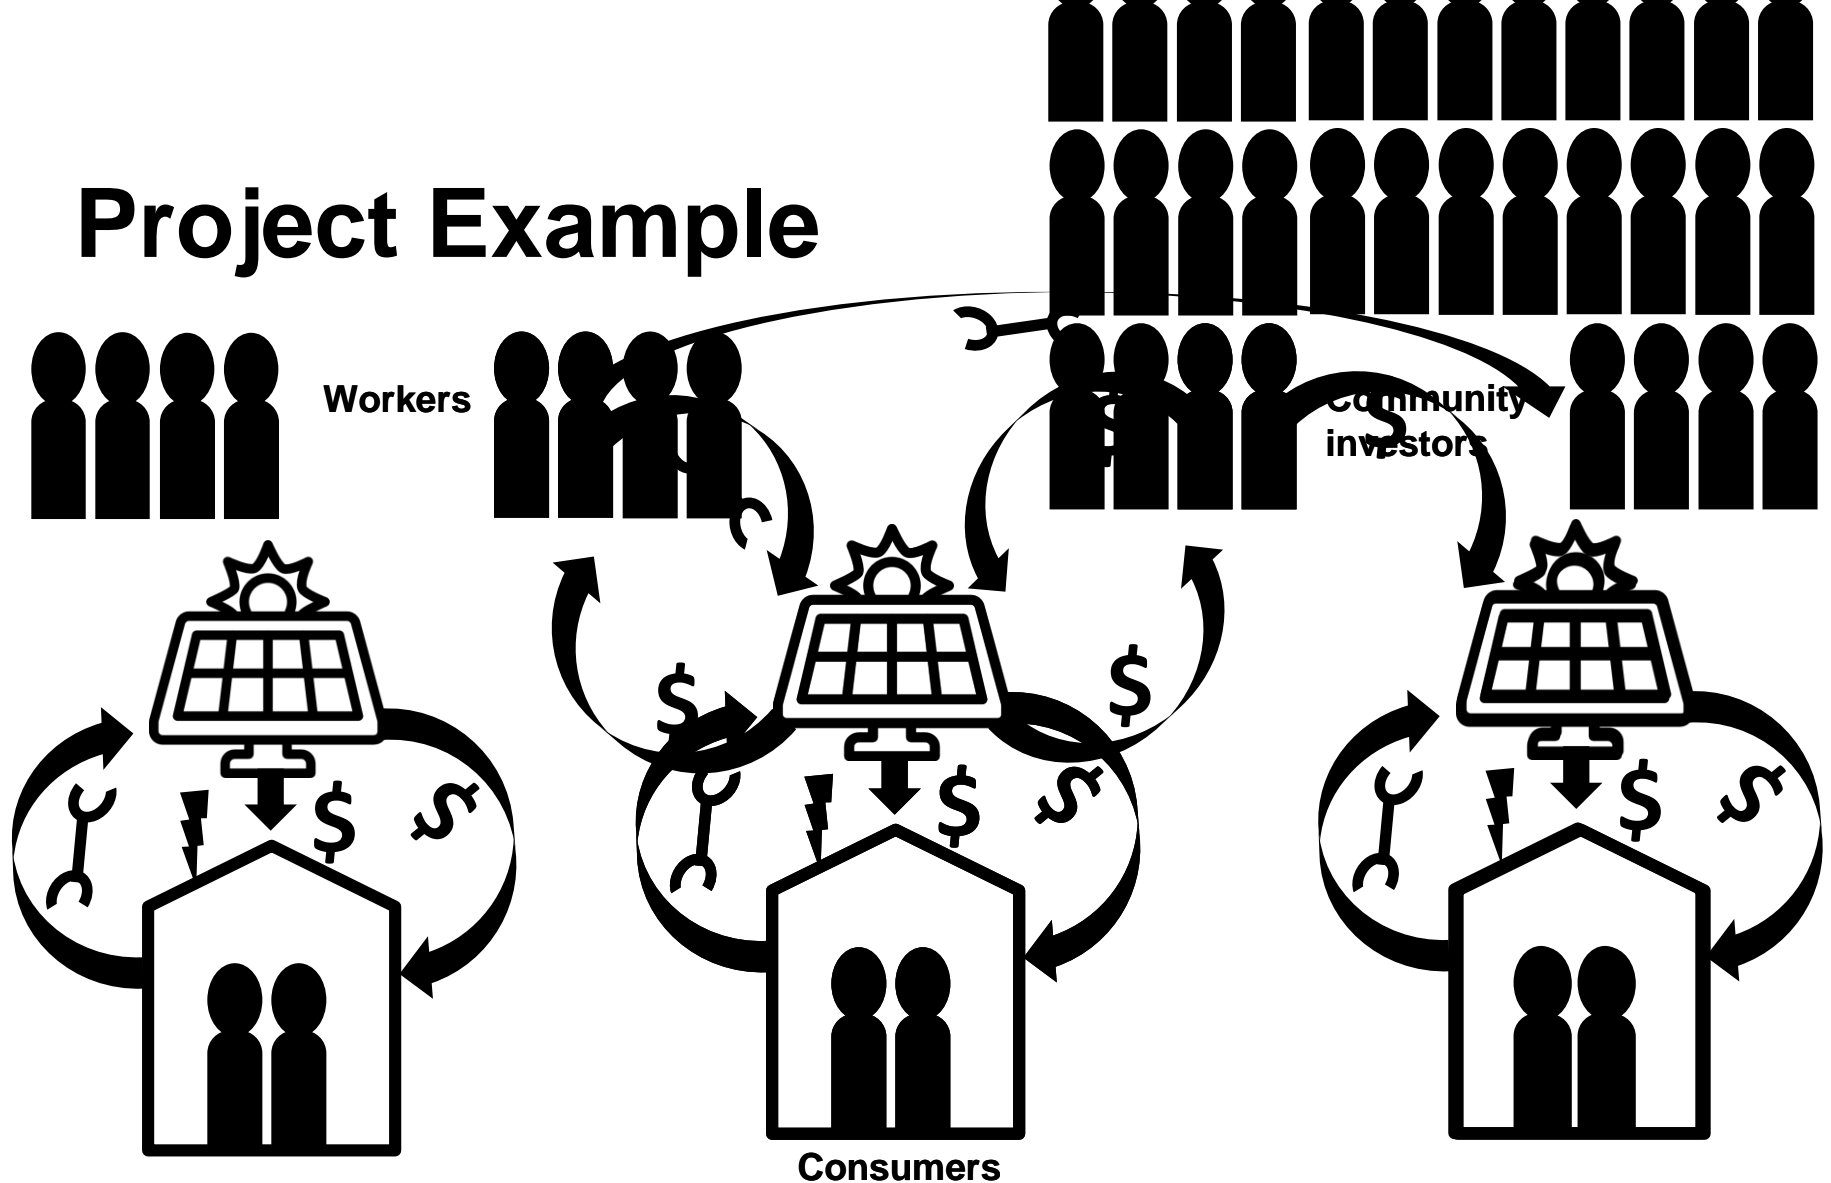

Overcoming Barriers

Financial
& Legal

Project Example

Thank you to the conference
organizers and participants!
