

# Want Renewable Energy?

## Support Community Choice!

Bay Area cities and counties are evaluating an opportunity to provide **50% renewable energy by 2017.**

With Community Choice Energy, local governments purchase clean electricity and sell it at stable, reasonable rates to residents and businesses. PG&E handles transmission, maintenance, and billing.

## Community Choice for a Strong Green Economy

The Local Clean Energy Alliance of the East Bay supports Community Choice in Oakland, Berkeley, and Emeryville to:

- **Achieve 50% renewable energy by 2017.**
- **Maximize local renewable energy production.**
- **Create local business opportunities and green-collar jobs.**
- **Offer stable and affordable electricity rates for all.**
- **Allow businesses, residents, and others to sell green energy to the grid.**
- **Promote energy conservation.**

### ***Did you know?***

PG&E's 2007 energy mix has

- Less than 1% solar
- 2% wind
- 24% nuclear
- 51% fossil fuels

Community Choice in the Bay Area promotes wind, solar, and other renewables as well as conservation!

## Join the Local Clean Energy Alliance of the East Bay

You can help bring Community Choice Energy to the East Bay! To **add your organizational or business name** to our growing list of supporters, contact [info@localcleanenergy.org](mailto:info@localcleanenergy.org).
